

Assembly guide

Half circle carousel:

Component parts

Tools required (Not Supplied)

2 x Half carousels

Bradawl

Pencil

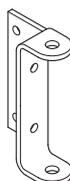

Screwdriver

Did you know Häfele also supply tools to the trade and industry?
See www.hafele.co.uk for more information.

- Make sure all the components are included before you start.
- The number for technical support is at the bottom of the page.
- Don't rush!
- Read the instructions first.
- Assemble in the stages shown.
- Keep the fittings together to avoid loss.
- Have fun.

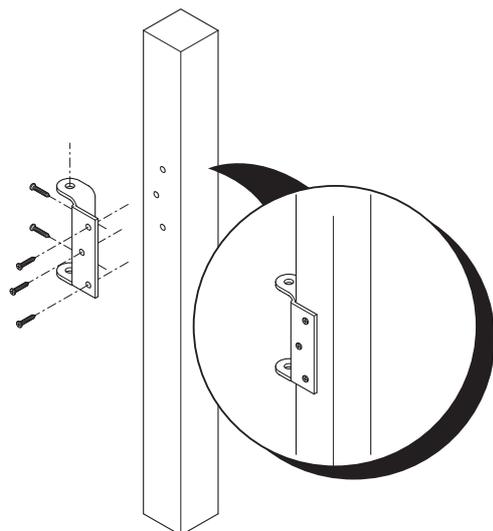

2 x Fixing pins

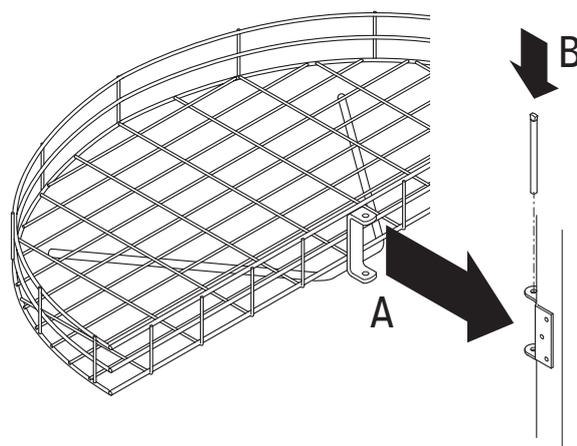

2 x Mounting plates

Check off components as shown in diagram and lay on flat surface

- 1 Hold mounting plate in place and mark with pencil or create pilot hole using bradawl. Fix mounting plate to corner post towards bottom with 5 x wood screws (not provided). Ensure that bracket has two centimetres clearing distance from bottom of carcass.

- 2 When bracket is in place introduce carousel bracket A slightly above mounting bracket and drop pin B into place; circular end first.
When this is complete repeat steps one and two but place bracket further up corner post. We recommend fixing 2nd bracket about halfway up corner post.
